It is scheduled to be replaced by Firefox 49.0 on September 13, 2016. At that point, Mac users using OS X 10.6 through 10.8 (Snow Leopard, 10.7 Lion, and 10.8 Mountain Lion) will be left behind by the current versions of Firefox. It will be a sad day, as Firefox is the last major browser to support Mac OS X 10.0, first offered to Release channel users on September 20, 2006. Firefox ended support for Mac OS X 10.0 on September 20, 2016.
